

INDIA TOWARDS 666!!!

By : RAJAN THOMAS, BAHRAIN

(Published in 'Harvest Times, Mumbai – 2007)

How can an individual's movements be tracked if he tries to retreat from government systems or societies? How can a person be brought under close surveillance?

This has been rather difficult in the past. It maybe possible in a relatively small country or state, but is it possible in a very large nation like India where 1.2 billion live in rural and urban areas?

Well, the answer to that is the issuance of '**Unique Identification Number (UID)**'.

Here are some reports on UID.

'Unique Identification Number (UID) is a recently finalized initiative by the Government of India to create and manage a centralized identification system for all the adult citizens and residents of India, which can be utilized for a variety of identification purposes. Nandan Nilekani former co-chairman of Infosys has been appointed as the head of Unique Identification Authority of India and will have a ministerial rank. He has decided to step down from the board of Infosys Technologies.

"Unique Identification Authority of India (UIDAI) shall have the responsibility to lay down plans and policies to implement Unique Identification (UID) scheme, shall own and operate UID database..."

*Minister of State for Planning and Parliamentary Affairs
V.Narayanasamy said in a reply in the Lok Sabha.'*

As the project proceeds, every citizen in India will receive an identification number which will be issued through a centralized database system. All necessary data related to each individual will be stored up in the database which will be incorporated in the digitalized number card.

Where is India heading with this?

The Book of Revelation chapter 13 verses 16 to 18 provides a prophetic overview of the modes operandi by which the World Ruler will control all systems of the globe including each individual.

16 And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads:

17 And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.

18 Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six.

The time sphere of the fulfillment of the prophecy is the period almost near to the Second Advent of Christ when the future World Dictator would rule the world.

The verses reveal as follows:

1. Verse 16 reveals - Individuals of every social and economic level – children, adults– young and old, employer or employee, rich or poor, contract or free labor class individuals - all will receive an identification mark either on their right hand or forehead, which means that every individual born and living in world societies in that period of time has to undergo an identification process.
2. A control system will be set up through a centralized identification number for every transaction each individual makes, whether great or small. Without having such identification a person cannot carry out any transaction. The usage “ **might buy and sell**” infers all sort of transactions as socio-eco scholars define economic and social activities of buying and selling of services, products, ideas, etc. This implies every activity of each individual would be brought into surveillance and checking. Movements will be restricted and none can escape in privacy without the knowledge of authorities.
3. The identification mark or stamp received by individuals will be inter-related with the name or equivalency number of the anti-christ. The usage in verse 17 “**the name of the beast or the number of his name**” sheds light to numbers that created equivalent to names. Verse 18 indicates that the equivalency number of the name of the anti-christ would be 666 which could be assessed only through wisdom (Sophia).

The mention of ‘wisdom’ in this context could be the wisdom in the natural sphere rather than the spiritual sphere. Therefore, it can be inferred as scientific and technical knowledge , a more or less same scenario that was intended in **Daniel 12: 4b**. Remember that both prophecies in **Daniel 12:4b** and **Revelation 13: 16, 7 & 18** are related to a future time sphere

yet to be fulfilled in future, in an advanced hyper-technological age.

With the base of the fact that letters of Hebrew, Greek and Latin had numerical equal numbers by which the Bible interpreters tried to define 'the number of beast' and these efforts resulted into several speculations. As the time line of prophecy is a future period of scientific and technological knowledge explosion, it would be more appropriate to think it in a stream of the digital technology that commenced decades before, a scenario that could not be thought of by our earlier generations.

The digital technology is the art and process of converting letters into as numbers such as ASCII character codes, Unicode character codes, binary and hexadecimal codes. Letters, words, consonants and sentences are processed and stored as digits and reproduced in same format. In other words, the whole process of digital and data technology is related to equivalency numbers. This could be what John intended when he stated number of the beast as **666**.

As the technology of digitalization is fast advancing, government systems have applied the computer science for population registry, data recording and verification. Almost all developed countries have adopted the system to register personal details of each individual citizen in their centralized digital data centre. Each individual is given a digital equivalency number in which includes, name, parent's name, residential and correspondence addresses, age, spouse's and children's names, employer details, past history including criminal details, if any, etc.

The number of the writer of this article is **571111416** and a smart card processed by the Central Population Registry of the government is provided. Without the smart card being produced at any institution such as banks, immigration, emigration, customs, supermarkets, various ministries, etc., no transactions are possible and services are made unavailable. These institutions are interconnected with a database net working system so that any error at one point shall be traced out at the other point. Even entry to buildings and offices or strategic areas are

also restricted if these smart cards aren't produced. In John's languages "**no man might buy or sell**" (Rev. 13:17) indicating to all sort of transactions to survive.

Technology is advancing fast in that the digitalized smart card can be implanted in the hands or forefront of each individual and the data scanned by digital scanners placed in specified areas. This type of digital passing systems has already been applied to pass through strategic areas including for toll collection, ticketing, etc. (e.g. Delhi metro).

The great advantage of such a system is tracking out the location of individuals in the society which was rather a difficult or even an impossible task in the past. With digitalized information implanted in the body and connected with systems such as **Global positioning systems** or **Automatic Tracking control systems**, the whereabouts of each individual can be tracked easily and instantaneously. Currently, institutions and companies in developed countries are using this technology to track out their vehicle movements; in each vehicle micro chips are implanted and the movements are available in the monitor screens placed at the controlling offices. Any lost movement in deserts or thick forests could be traced out by this system.

While analyzing Revelation 13: 15, 16:2 and 19:20, we can understand that all subjects in the world nations under the centralized rule of anti-christ will be divided into two; those who have received the mark and those who will rebel and reject to receive the mark. Those who received the mark are the ones who accept the fierce ruler as their god and would adore his image (**Rev. 13:14**). Whereas, the ones who reject to receive the mark of the anti-christ shall be tracked down and killed as martyrs.

Fulfillment of the prophecies of individual tracking and monitoring of movements of each person would be possible and rather easy by digitalized identification marks through internet connectivity and tracked out through advanced systems such as Global positioning systems or

Automatic tracking control systems. By checking and restricting all transactional freedom as mentioned in Rev. 13:17, it is going to be a hell like experience for the ones whose identity is connected with the identity (666) of anti-christ.

While these technologies are already available in developed nations decades before, developing nations are also entering into the scene of issuing digitalized identification numbers to all their subjects. As a sub-continent, India with her densely populated urban and remote rural areas are going to achieve in bringing each individual under surveillance, remaining nations would also certainly adapt the system.

Both Prophet Daniel (B.C. 539) and Apostle John (A.D.96) had pre-pictured a one world government under antichrist by the second coming of Christ. And also as seen in Rev. 13: 16, 17 & 18, each individual in the world would be brought under close surveillance. For centuries such, Bible predictions were 'unintelligible' and men of higher criticism rejected as impractical dogmas.

The world is near to see antichrist and his governing systems with the aid of satellite controlled lap tops, palm tops or even with a mobile telephone monitoring the personal movement of people everywhere in the world by punching their personal data digital number. Towards this scenario, the world ruler might centralize population registry computer servers of all nations from where the personal data numbers are issued to their citizens and bring it in his control and supervision.

Is it not a wonder that as the world nations are becoming as a global village and science and technology advances further the probability of fulfillment of those prophecies are becoming for precise and accurate?

We read in 2 Peter 1:20 & 21 that "Knowing this first, that no prophecy of the scripture is of any private interpretation.

For the prophecy came not in old time by the will of man: but holy men of God spake as they were moved by the Holy Ghost.
